ENVIRONMENTAL POLICY

Southern Industrial Roofing Limited is fully committed to the implementation of this environmental policy and will seek to ensure that all areas in the Company are compliant where appropriate. We recognise that our operations have an effect on the local, regional and global environment and as a consequence of this the Management are committed to the continuous improvements in environmental performance and the prevention of pollution. Environmental laws, regulations and codes of practice will be regarded as setting the minimum standard of environmental performance.

Southern Industrial Roofing Limited will seek to: -

- Implement our policies through a coordinated environmental management system
- Use environmentally safe and sustainable energy sources to meet our needs
- Invest in improving the energy efficiency of products we use and sell
- Consider the environmental impact of our products at all stages of their life cycle, including design, manufacture, use and finally disposal
- Address our impact on the environment through the adoption of a sustainable procurement policy
- Conserve resources through efficient use and careful planning
- Maintain that a primary part of our corporate management strategy is sustainable waste management and as such recognise our responsibilities to minimise waste, especially hazardous waste; and to dispose of all waste through responsible methods, recycling materials wherever possible
- Work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation
- Coordinate route planning and delivery schedules to reduce fuel consumption and lower exhaust emissions
- Set environmental targets and goals designed to improve our environmental performance
- Implement our policies through guidance and training to all our staff
- Conduct regular self-evaluation of our performance in implementing these principles and in complying with all applicable laws and regulations

To this end the Company has established an environmental management system in accordance with the commitments contained within BS EN ISO 14001: 2004.
